escuela temática de naturaleza UCM

La Escuela de Naturaleza de la UCM, se inició en el año 2014 y se ha consolidado como un proyecto innovador, orientado a la observación, manipulación y análisis de los procesos naturales que acontecen en el medio natural.

Los diversos métodos científicos utilizados en la investigación universitaria, nos sirve como base de referencia para las intervenciones metodológicas de nuestro programa de actividades, teniendo en cuenta los niveles cognitivos que se plantean en los Ciclos Educativos de Primaria y Secundaria. El desarrollo de las actividades, se centra en la aplicación de los procesos biológicos y geológicos que se producen en la naturaleza, mediante procedimientos que nos ayudarán a la comprensión de la interrelación entre los fenómenos físicos y químicos que se producen en el medio ambiente.
