

# REVISTA ELECTRONICA DE CIRUGIA UCM

## Segundo número

Estimados colegas:

En esta segunda entrega de nuestra revista, hemos procurado recoger la actividad de publicación del segundo cuatrimestre de 2014 de un modo más completo. Para ello hemos contado , además de con las publicaciones remitidas por autores, también con el resultado de una revisión sistemática de la producción científica en cirugía de los centros adscritos a nuestra Universidad.

De esta manera se ha obtenido el listado de publicaciones completo que os ofrecemos.

Nuevamente desde el comité editorial os agradecemos vuestra ayuda, sin la que, desarrollar la revista sería de todo imposible.

De nuevo os instamos a que procuréis hacer figurar el nombre de la Universidad Complutense y/o el Departamento de Cirugía al que pertenecemos.

Si detectáis errores u omisiones de vuestras publicaciones, no dudéis en ponerlos en contacto con la revista, para así subsanarlos tan pronto como sea posible. Por otro lado el comité editorial está abierto a vuestras sugerencias y observaciones.

Recibid un saludo y nuestro agradecimiento por vuestra colaboración.

El comité editorial de la Revista Electrónica de Cirugía de la Universidad Complutense de Madrid.

## Contenido

Índice de publicaciones..... 3
