What is JoVE?

JoVE is the world's first and only peer reviewed and PubMed Indexed scientific video journal.

JoVE has published over 5,000 video articles from institutions including Harvard, Stanford, MIT, and the NIH.

These video articles present cutting-edge research in over a dozen fields of scientific study and are viewed by millions of users in over 900 institutions around the globe.
JoVE’s Solutions

**JoVE Journal**
The first scientific video journal dedicated to help scientists advance their research by increasing productivity, efficiency, and reproducibility.

**Science Education**
An innovative video database that is dedicated to teaching laboratory fundamentals through simple, easy-to-understand video demonstrations.
JoVE Journal

- Peer-reviewed by our prestigious editorial board
- Indexed in PubMed, Medline, SciFinder, etc.
- Over 5000 articles – 90 new video articles published each month
- Customized subscription model by section (13 sections)
- Over 16,000 published authors from top institutions worldwide

Journal Benefits

- Increase research productivity and reproducibility
- Quickly onboard new lab trainees
- Save money and resources for labs
- Learn gold-standard and newest methods

“Methods are complex and can only partially be described in words. Seeing the method performed immediately provides a wealth of information to the viewer. This information conveys a realistic idea of how the method is done, what is needed to do it, and helps the viewer analyze how they should proceed.”

Dr. Michele Calos, Stanford University
Science Education (SE)

- Laboratory Fundamentals
- Simple, Easy to Understand Video Demonstrations
- Engaging Animations
- 300 professionally produced core videos with over 40 hours of tutorial content
- Video content maps directly to classes
- Flipped Classroom Tool
- JoVE Quiz Testing Tool

You may also include an image for reference by clicking "Choose File" and selecting your image.

Confirm and preview your quiz before sending it out to the recipients in (2).
SE Benefits

- **Increased speed of learning** in laboratory and classroom environments
- **Saved time and work for teaching faculty**
- **Consistent growth in student success**, learning outcomes, and **STEM retention**
- Support both undergraduate and graduate instruction

“Initially it took multiple tries, whereas now when we teach this technique with the JoVE video we have a success rate between 90 to 100 percent.”
