THE PHYSICAL REVIEW: Review Process, Publishing, and Open Access

Dr. Robert Wimmer
Associate Editor, The Physical Review series
American Physical Society

The structure of the different Physical Review Journals (PRA to PRE, PRL, PRX, PR Applied, PR Fluids, PR Materials, and RMP) as well as the review process of the Physical Review will be described. The Physical Review highlighting mechanism, especially through our online magazine "PHYSICS", and media interactions will also be addressed. Finally, Open Access publishing and the new initiative called "Plan S" will be discussed. Questions are very welcome.
