Any course	6

Knowledge acquired

- Interpret archaeological records, with their interdisciplinary diversity, in order to turn them into social and historical knowledge.
- Manage archaeological heritage in its various areas of knowledge, planning, monitoring and dissemination.
- Research archaeological sites and landscapes with modern prospection and excavation techniques.
- Apply acquired knowledge to the various fields of the profession: research, teaching and professional practice, including management and dissemination of assets.
- Understanding what Archaeology, archaeological theory and historical processes are.
- Maintain an innovative and flexible attitude in very different settings.
- Practice as a professional with ethical responsibility.
- Develop capabilities, skills and competences specific to the present requirements related to labour demands.
- Acquire and maintain scientific rigour specific to basic training as a historian.
- Understand and work with human processes of change and continuity with a diachronic perspective, from Prehistory to the present world.
- Understand the economic, social and ideological structure of the societies whose remains are being studied.
- Manage skills from diverse scientific disciplines that provide specific data on the nature of cultures -Anthropology- or of archaeological objects or sites: Geology, Geography, Chemistry, Zoology, etc.
- Manage, with a critical perspective, the issues and discussions facing Archaeology today.
- Communicate to diverse audiences the information thus obtained, as well as the methodology used.

Professional opportunities

There are basically three areas where there is currently work for Archaeology in our country: Teaching/Research, Management and Business.

Accordingly, professional opportunities are very diverse:

- Archaeological research.
- Professional Archaeology.
- Management of archaeological heritage.
- Archaeology museology.
- Teaching.
- Environmental assessment companies.
- Media.
- Human resources.
- Public administration.
- Development cooperation.
- Cultural tourism.
