Undergraduate and Postgraduate Studies

at Complutense University

GENERAL INFORMATION UCM

The Complutense University of Madrid, with nearly 80,000 students, is the largest classroom learning university in Spain, one of the highest quality and prestigious in Europe, and a centre of reference for Latin America.

It is strategically located in the capital of Spain with excellent communications from anywhere in the Community of Madrid by underground, bus, commuter train, bicycle lane, and excellent connections between the two campuses.

It is divided into two campuses: Ciudad Universitaria in Moncloa and Somosaguas. It also has a few centres in the city of Madrid.

With a focus on students, this University aspires to provide a comprehensive and critical education of the highest level, offering undergraduate and postgraduate degrees a good academic reputation and that are widely accepted in the labour market, since one of the priorities at UCM is to attain closer and stronger relationships with society and industries.

UCM is well placed in Spanish and international rankings, boasting a leading position among Spanish universities. In particular, it stands out for the employability of its students and the quality of education it delivers. UCM also has an outstanding record in terms of publications in high-impact scientific journals. Among its strongest points in this area are the quality of its educational environment and its research output and great reputation in Spain and abroad.

CONTINUING EDUCATION

www.ucm.es/cfp

The education offered at the Complutense University is not limited to Bachelor's Degrees, Master's or Doctorates. As an education institution, we believe that training does not end with formal studies and that a university's teaching mission must be linked to the mission of transferring our knowledge to society. Therefore, we strongly believe in lifelong learning, which can be pursued in our own courses, of varying duration, intensity and mode of delivery (classroom learning, blended learning and e-learning).

Our training offer is open, flexible and up-to-date, with courses designed to meet different needs: professional refreshers, acquisition of new skills or knowledge, certification of competences, or simply just to attain more education in a specific field.

In-house or proprietary courses offered by Complutense University of Madrid

Courses requiring prior university qualifications

- Unofficial Master's Degrees: between 60 and 180 credits. These degrees are taken over at least one academic year and require an end-of-masters project that must be defended before a committee.
- Specialisation Diploma, between 30 and 59 credits.
- Expert, between 20 and 29 credits.

Intended audience?

University graduates who wish to complete their official training or specialise in a specific area, through courses that are taught either face-to-face, using blended learning or online. Schedules vary widely.

Courses not requiring prior university qualifications

- Lifelong Learning Diploma: 15 credits or more.
- Lifelong Learning Certificate: less than 15 credits.

Intended audience?

Students and people who, working or otherwise, are interested in updating their academic, scientific or technical training, improving their professional qualifications, reorienting their career, entering the labour market and developing strategies and personal skills (face-to-face, blended and online learning) throughout the academic year. A university degree is not necessary to take these courses.

Conceived as a university meeting point for Spain, Europe and Latin America for students from all over the world.

Latin American Complutense School

www.ucm.es/ecl

Since its creation in 2006, thousands of students of many different nationalities have participated in annual editions, carried out in various locations in Argentina, Mexico, Brazil, Colombia, Peru and Chile. ECL courses are aimed at university students and professionals from all over the world who wish to learn more about the four core areas of study.

Professional Specialisation Schools

www.ucm.es/escuelas-de-especializacion-profesional

These schools deliver courses to improve professional performance of graduates, as well as continuing education for professional advancement. To achieve its goals, it works with public administrations, professional associations, organisations and other public or private entities related to each respective profession.

Computer Training Courses

cursosinformatica.ucm.es

Eminently practical courses which can be taken remotely, equivalent to 40 on-site hours. They are given through the UCM Virtual Campus on the Moodle platform.

University for Seniors

www.ucm.es/mayores

Its ultimate goal is to create an academic-scientific-cultural space for people over 55. The Programme currently has two cycles: Cycle One is comprised of three academic years with 150 lecture hours each, and Cycle Two -for specialisation- is based on seminars with 45 lecture hours a year.

Visiting Students

www.ucm.es/estudiantes-visitantes

The University's own programme through which students from foreign universities and university graduates from Spanish or foreign universities wishing to study subjects in the UCM's official undergraduate and master's syllabuses may enrol without having to follow the admission procedures required to obtain a formal degree.

RESEARCH

The Complutense University, in an effort to promote research activities within its university community, has a large number of Research Groups, many of which are at the top of the worldwide ranking. UCM strives to develop poles of excellence based on large networks of quality groups, foster emerging groups and integrate young investigators, linking research to undergraduate and postgraduate studies. UCM has excellent laboratories both for advanced research and that carried out by the students themselves.

The Complutense University also has 28 University Institutes and Research Centres (www.ucm.es/institutos-universitarios), as well as 9 Research Support Centres (CAI) and Singular Scientific-Technical Infrastructures (ICTS) (www.ucm.es/cai).

INTERNATIONAL CONTEXT

Universidad Complutense (UCM) has collaboration agreements with a large number of universities around the world for the exchange of students, teaching and administrative staff. Currently it has 2,936 international collaboration agreements with 785 institutions around the world.

With a view to internationalising its academic offering, it offers a wide range of possibilities for student mobility through scholarships, such as the Erasmus Programme, Becas Santander Iberoamérica, UCM-University of California Programme, UCM-IES, Becas del Amo, Readerships and Programmes under international agreements. It also receives a large number of international students through programmes such as Erasmus, Programa Puerto Rico, and collaboration with other bodies, such as CONACYT (Mexico), FIDERH-BANCO DE MEXICO, BECAL (Paraguay), BEC.AR (Argentina), PRONABEC (Peru), MESCyT (Dominican Republic), CONICYT (Chile), FUNDACIÓN CAROLINA, ICETEX (Colombia), AUIP and some embassies.
