Degrees

- Biology
- Biochemistry
- Food Science and Technology
- Physics
- Geology
- Mathematics
- Mathematics and Statistics
- Chemistry
- Double degree in Economics - Mathematics and Statistics
- Double degree in Computer Engineering - Mathematics
- Double degree in Mathematics - Physics

Masters

- Advanced Spectroscopy in Chemistry - Erasmus Mundus
- Physical Anthropology: Human Evolution and Biodiversity (consortium)
- Astrophysics
- Conservation Biology
- Evolutionary Biology
- Applied Plant Biology
- Biochemistry, Molecular Biology and Biomedicine
- Chemical Sciences and Technologies
- Ecology (consortium)

- Energy
- Biomedical Physics
- Nuclear Physics (consortium)
- Theoretical Physics
- Genetics and Cellular Biology (consortium)
- Environmental Geology
- Advanced Math
- Meteorology and Geophysics
- Microbiology and Parasitology: R&D
- Molecular Nano-and Bio-photonics for Telecommunications and Biotechnologies - Erasmus Mundus
- Nanophysics and Advanced Materials
- Neuroscience
- New Electronic and Photonic Technologies
- Advanced Palaeontology (consortium)
- Plasma Physics and Nuclear Fusion - Erasmus Mundus
- Geological Processes and Resources
- Organic Chemistry (consortium)
- Ecosystem Restoration (consortium)
- Optics and Imaging Technologies
- Zoology
