

OFFER OF SERVICES

The services offered by the University Evaluation Institute are in accordance with its mission. All these services lie within the framework of the statutes of the Complutense University of Madrid, in the regulations governing the operation of the University Institutes and in the management procedures established by the University.

1. Research support services.
2. Training services.
3. Advisory services.

Statistical Evaluation Area

With the objective of supporting research and the transfer of knowledge to society, IUE offers the following services in this area:

- Statistical assistance in projects of doctoral theses, scientific publications of end of Degree and end of Master projects.
- Assistance in the design of scientific works.
- Organization of training courses in the area of statistics.
- Design of statistical models.
- Statistical advice for companies and other organizations.

There is a Scientific Committee, which has the responsibility of assessing the feasibility of the realization of requests for advice and training made by clients.

These activities are carried out by a group of researchers from the Universidad Complutense de Madrid and other universities.

Area of Evaluation and Management

The University Institute of Evaluation offers the University a set of advisory services in the areas of evaluation and management directed to the centers, departments and other teaching, research or service structures, in order that the results of the same can be useful for improving their management.

These same activities are offered to sanitary and educational organizations in the public sector.

The offer of services is specified in:

- Design and implementation of evaluation projects aimed at assessing the performance of teaching, research and management.
- Analysis of the viability of organizational structures.
- Evaluation of institutional programs and policies.
- Elaboration of working standards.
- Design and implementation of Quality Management Systems
- Design and implementation of Risk Management Systems in the health area
- Design of indicators and / or metrics to evaluate the results of the organization.
- Training of management teams with the aim of acquiring competencies in issues of integral management, mainly in the definition and deployment of strategic plans, in the definition and deployment of the center's process map, in the definition and deployment of the indicators that measure the results of the organization's management.

There is a Scientific Committee, which has the responsibility of assessing the feasibility of the realization of requests for advice and training made by clients.

These activities are carried out by a group of professors from to the Universidad Complutense de Madrid and other universities:

Investigadores del Área de Evaluación y Gestión

Alicia Arias Coello

Associate Professor
Department Library and Information Sciences
(Universidad Complutense de Madrid)

Pablo Arranz Val

Associate Professor
Department of Applied Economics
(Universidad de Burgos)

Emma Dafouz Milne

Associate Professor
Policy Advisor for Curricular Internationalization
Department of English Language and Linguistics
(Universidad Complutense de Madrid)

Juan Pedro Muñoz Miguel

Associate Professor (Interim)
Department of Business Economics
(Universidad Rey Juan Carlos)

José Simón Martín

Professor emeritus
Department of Human physiology
(Universidad Complutense de Madrid)
