

NORTH AMERICA

North America is a diverse continent with a multicultural society and the world's largest economy. The United States of America and Canada have two of the finest university education systems in the world and they are the most popular destinations for international students.

North American universities are recognized and respected globally for their excellence, diversity, flexibility and top quality professors. They offer the most diverse range of higher education options anywhere in the world.

The Complutense University has agreements in 59 North American Institutions (51 - USA, 8 - Canada), as described below.

CANADA

Partner Universities

The Complutense University is a member of the TASSEP Consortium (Trans-Atlantic Science Student Exchange Program). TASSEP ensures that students are properly advised about course selection and transcript credit for courses taken abroad.

As an exchange programme, TASSEP provides the most affordable means for students to study abroad. Students simply pay tuition in their home institution and can enroll in the foreign university with no additional costs. Transatlantic transportation and all living costs are borne by the students.

Through TASSEP exchange programme Complutense Science Students can study at the following Canadian Universities:
