Recruitment

Internship in Consulting HCM, based in Madrid

Oracle Consulting Services (OCS) has an extremely high profile with customers. We understand and analyze their IT problems and opportunities, then provide the best Oracle technology solutions.

Applications consultants act as trusted advisors for customers, and do whatever it takes to deliver solutions that meet their business and value objectives.

As a consulting business, customer relationships are the heart of growing our business. We are ambassadors at the customer site both to create the right relationship and trust from the customers and to deliver high quality projects, services and advices. Our skills and capabilities are Oracle Consulting's most important asset.

We are looking to add an intern to our highly experienced Applications team in Madrid. This intern will work on projects implementing the range of Oracle Human Capital Management solutions in the Spanish market,

What you will do:

- Gathering customer requirements
- Understanding customer needs
- Working in Project Documentation
- Adapting product pages

What we offer:

- Long-term (12 Months) Part time (09:00 – 14:00) internship.
- Challenging, dynamic and fun working environment
- To start as soon as possible

What we are looking for:

- Ideally a Degree in Engineering, Information Technology or other comparable qualification
- Technical skills in JAVA, JAVASCRIPT, CSS, HTML
- Capacity to address/Analyze administrative procedures/process/tools
