

UPCOMING DEADLINES PhD IN ENGLISH LINGUISTICS May 2020

Dear all,

Please keep track of the following deadlines for the next weeks for all the students in the programme.

1.

Summaries for the VII Advanced Research Seminar: 1 July 2020

For those of you who have failed to submit the summaries of the five lectures held during the Seminar, notice the new extended deadline. Notice you also have the possibility of presenting summaries of five specialising topic-related lectures available on the Internet. Failure to comply with this may result in a negative course evaluation.

2.

Poster presentation (exceptionally, this year only for first-year students): 7 Sept 2020

A PowerPoint presentation (maximum six slides) containing text or graphics (or both), in combination with an oral presentation for about **six-eight** minutes about the topic. See instructions attached.

3.

RAPI 2 - (all students): 10 Sept 2020

Don't forget to complete the information regarding your "documento de actividades" and "plan de investigación" on RAPI 2. September 10th is the deadline to ratify or change your previous proposals in RAPI (remember this must be made **yearly**, according to new regulations) and upload any information concerning your PhD activities during this year.

4.

'Long' dissertation proposal (1st-year students): 10 Sept 2020

Alongside with this brief "plan de investigación", the PhD programme requires a long, detailed version of your dissertation proposal, written in academic English, and signed by your supervisor(s). Once signed, a copy of this proper dissertation proposal should be sent to Prof. Paloma Tejada (ptejadac@filol.ucm.es).
