

DOSIMETRIC ANALYSIS WITH A LINEAR ACCELERATOR FOR SMALL FIELDS

Jornada de Doctorado
Sesión primavera, March 2022

Nataly Diaz Rivera
Facultad de ciencias Físicas
Departamento de estructura de la Materia, Física
Térmica y Electrónica

UNIVERSIDAD

Pontificia Universidad
JAVERIANA
Columbia

01

INTRODUCTION

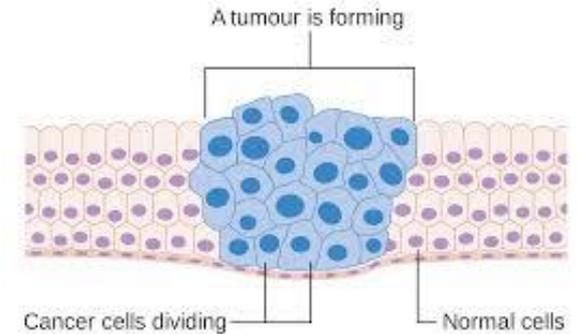

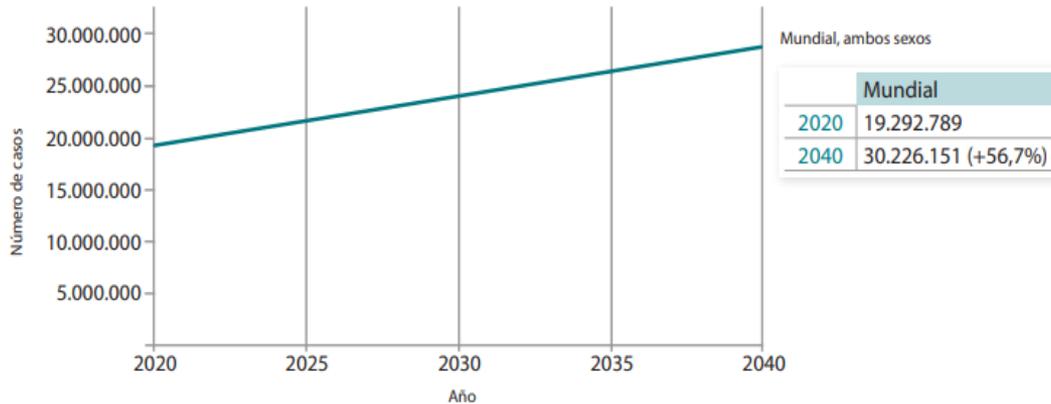

- Motivation
- Methodology
- Results and Discussion

Radiotherapy is a cancer treatment that uses high doses of radiation to kill cancer cells and shrink tumors.

Sociedad Española de oncología médica, S. (2021, 17 de Noviembre)

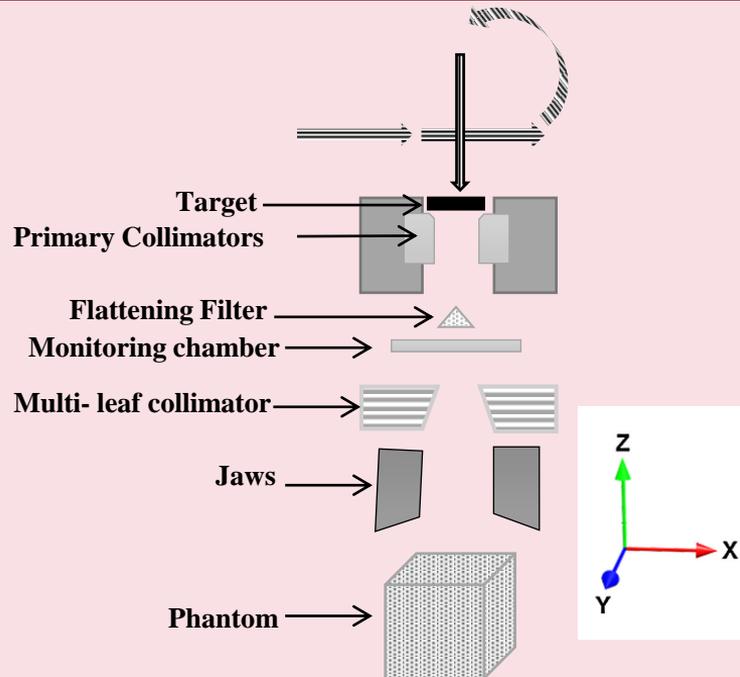

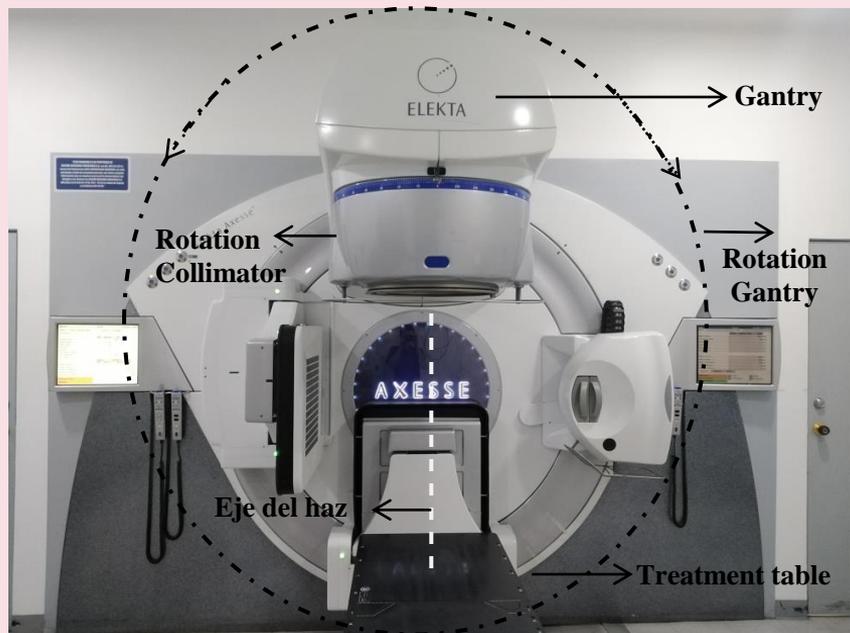

SMALL FIELD RADIOTHERAPY

Small-field radiotherapy was proposed in 1951 by the Swedish neurosurgeon Leksell

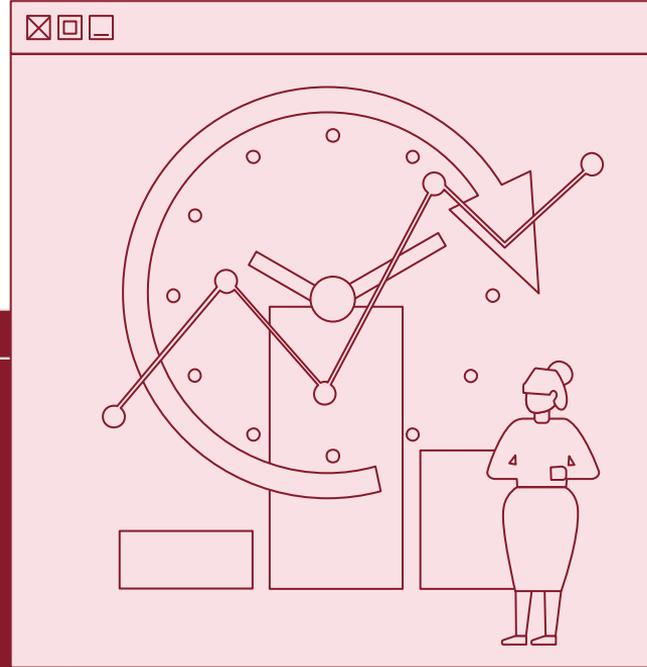

AXESSE ELEKTA LINEAR ACCELERATOR

02

MATERIALS AND
METHODS

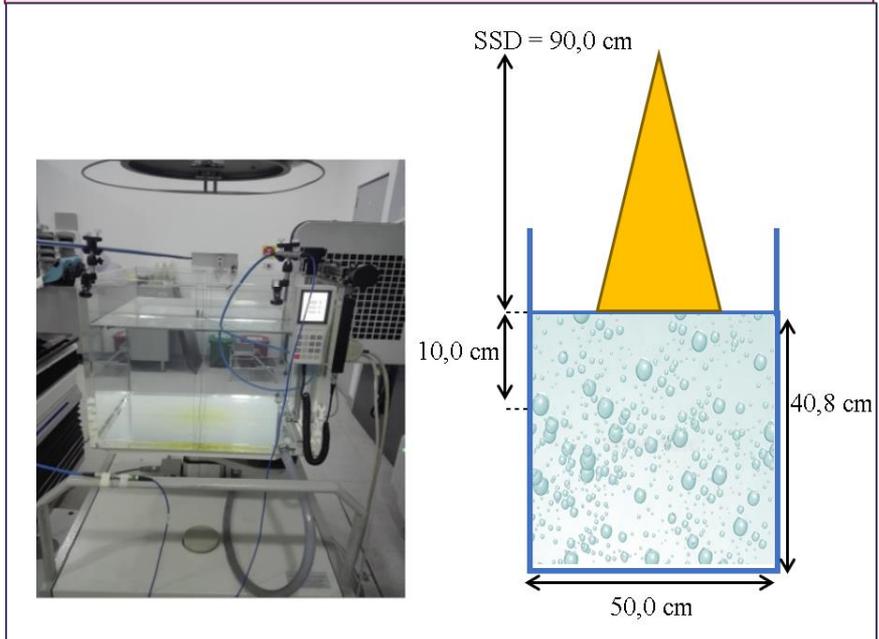

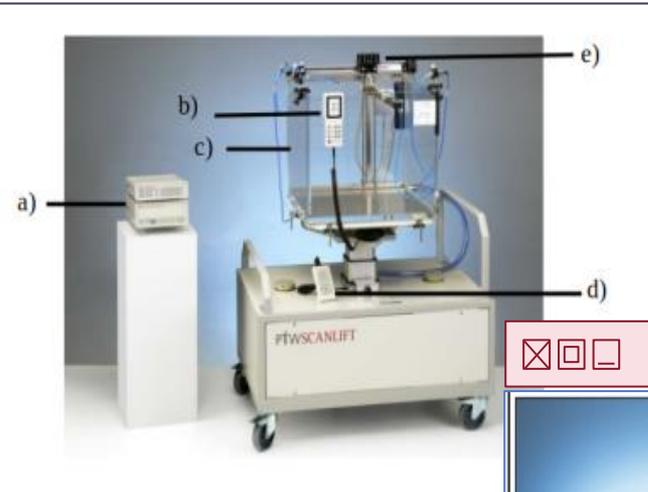

MP3-M SYSTEM AND SEMIFLEX IONIZATION CHAMBER

PTW, type 31010)

RADIOCHROMIC FILM

1

Matte Surface Clear Polyester Base, 125 μm

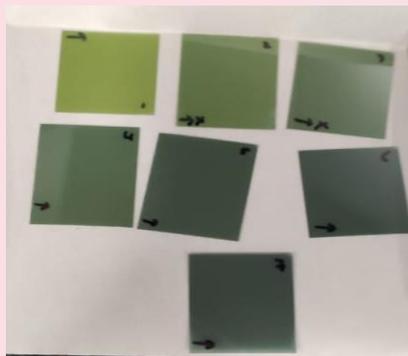

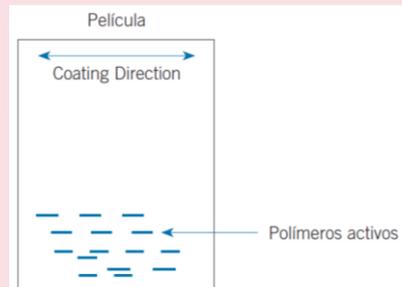

Active Layer, 28 μm

Matte Surface Clear Polyester Base, 125 μm

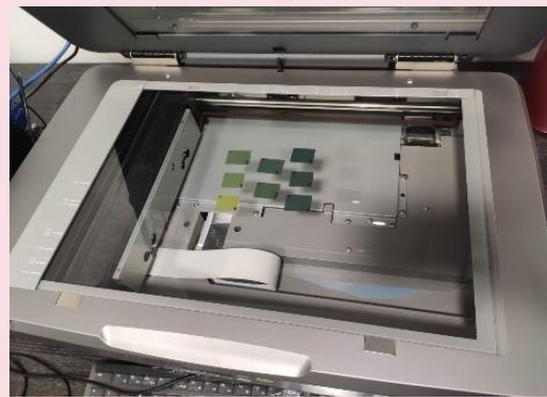

2

4

5

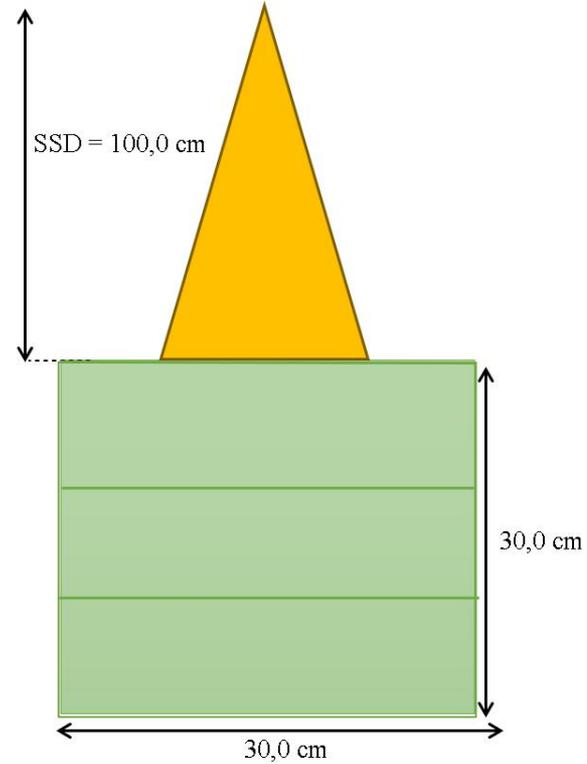

CONDITIONS EXPERIMENTAL DATA

MEASUREMENTS WITH EBT3 RADIOCHROMIC FILMS

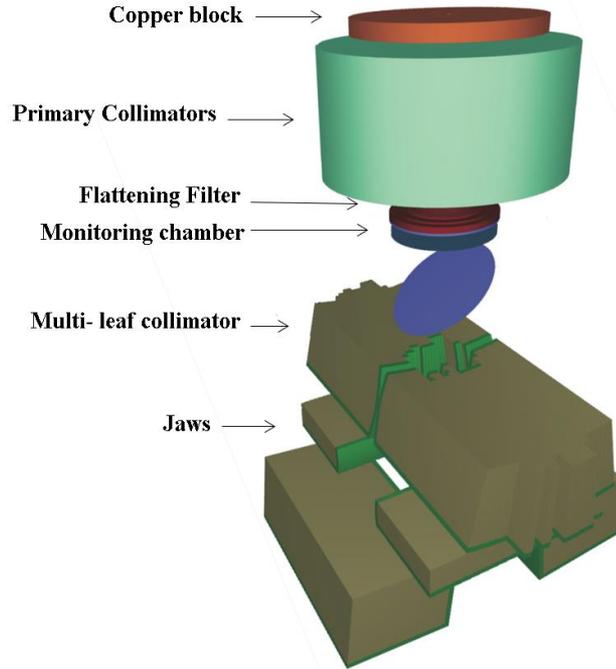

03

03

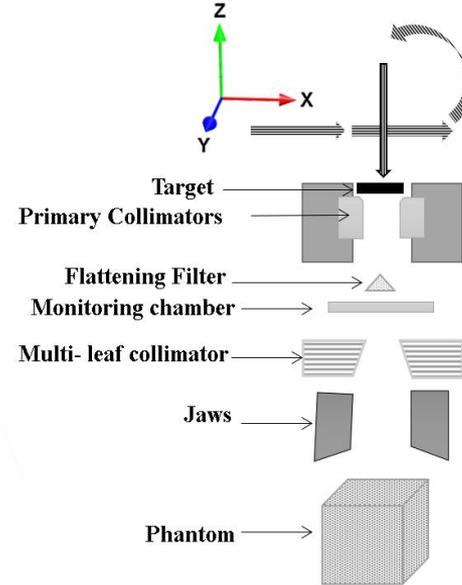

MONTE CARLO SIMULATION

LINEAR ACCELERATOR SIMULATION

a)

b)

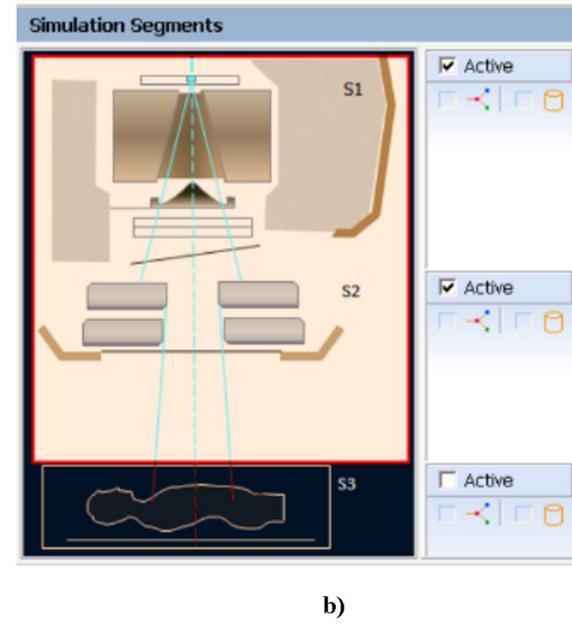

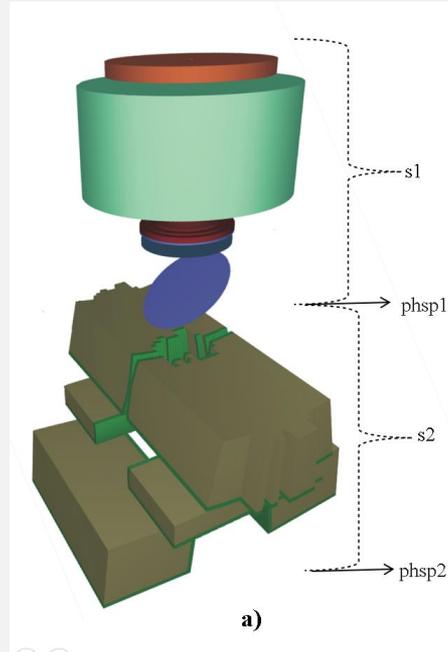

PHASE SPACE IN PRIMO

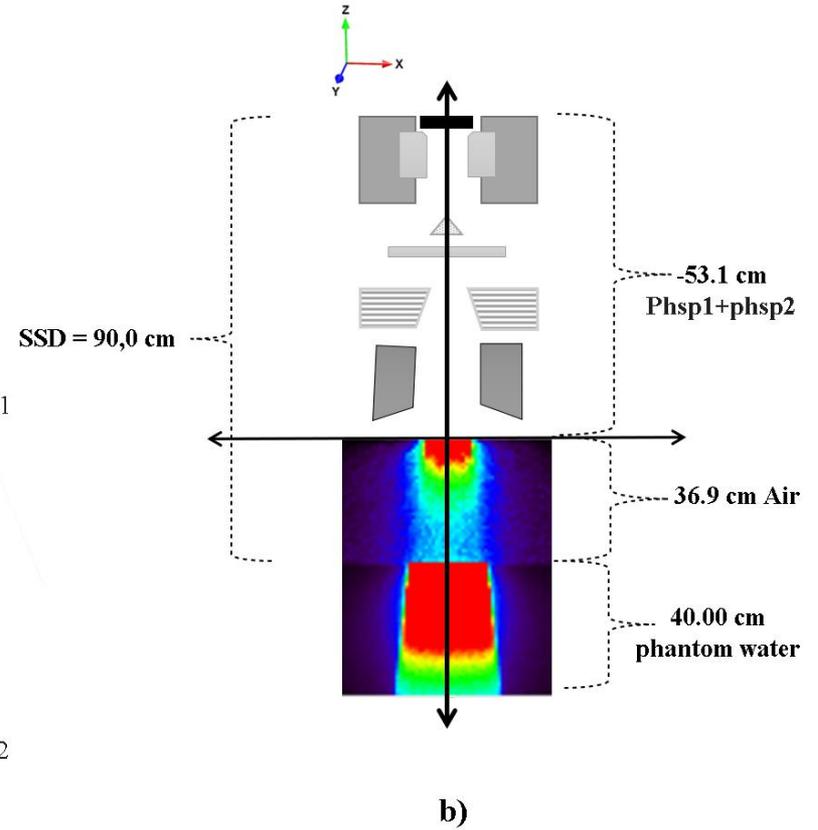

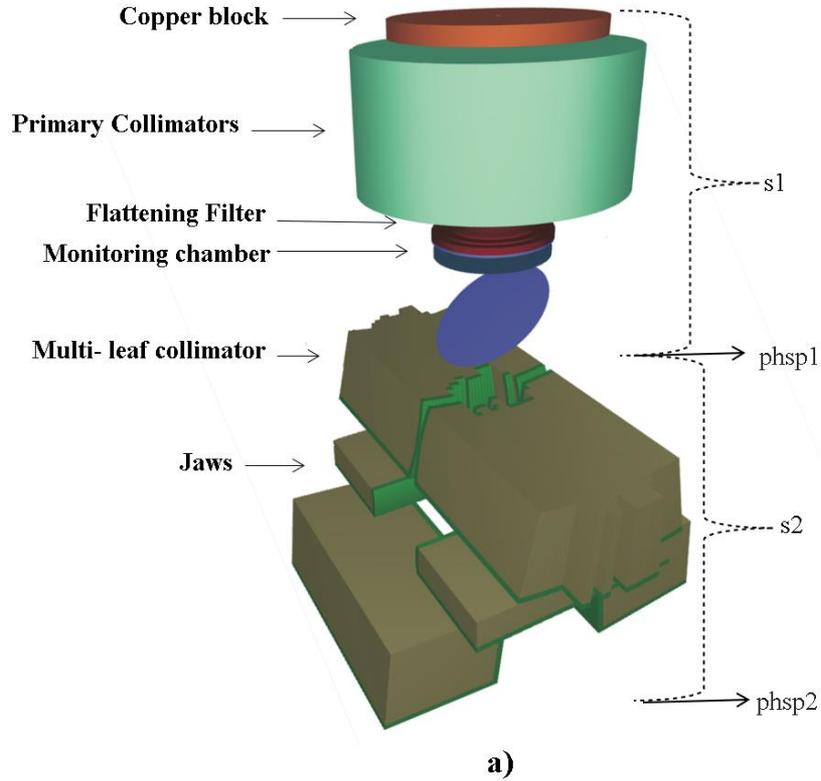

phase space contains information charge, energy, position of each particle.

beam characteristics such as energy distribution, particle fluence and energy fluence

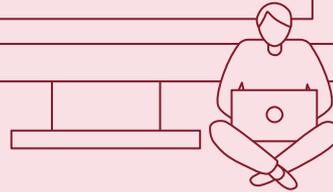

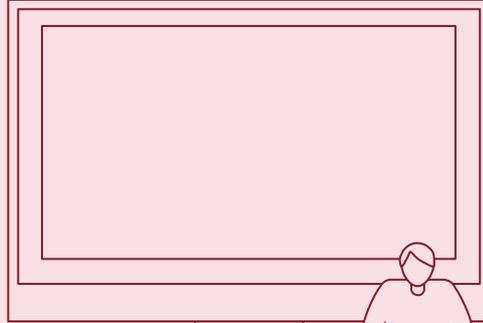

04

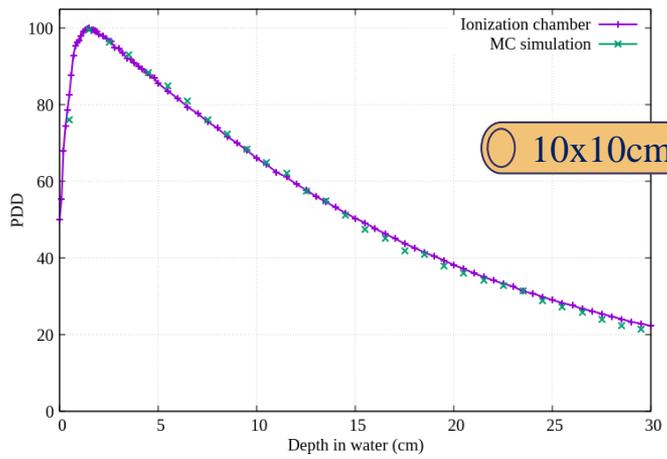

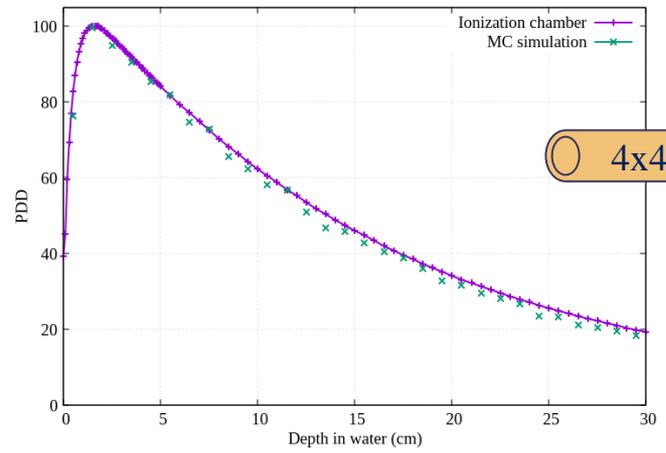

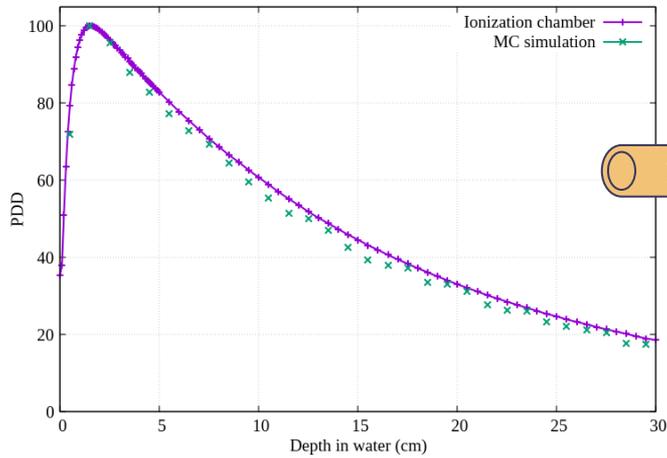

RESULTS

UNIVERSIDAD
COMPLUTENSE
MADRID

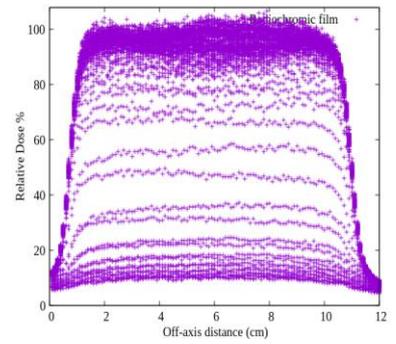

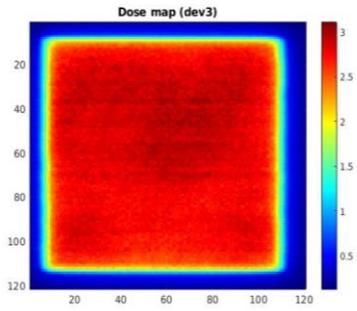

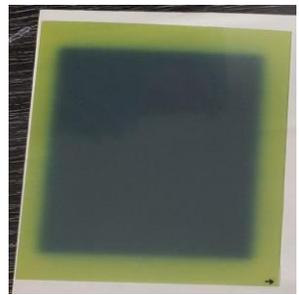

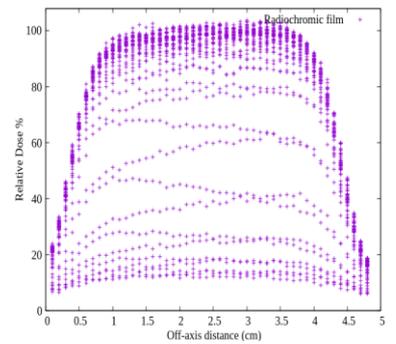

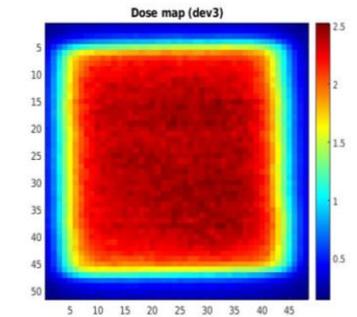

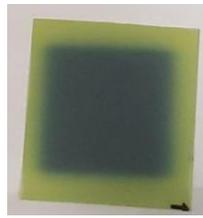

Field	PDD		
$\Delta d(p) = \frac{d_e(p) - d_c(p)}{d_e^{max}} 100$	(10 cm depth)	(20 cm depth)	(30 cm depth)
10x10	0.17%	0.66%	0.06%
4x4	0.11%	0.70%	0.03%
2x2	0.21%	0.93%	0.12%

After irradiation, radiochromic films need to be scanned and converted to dose. A multichannel is the best option, as it offers the selection of the red color channel for greater sensitivity at lower doses and the blue and green color channel for higher doses.

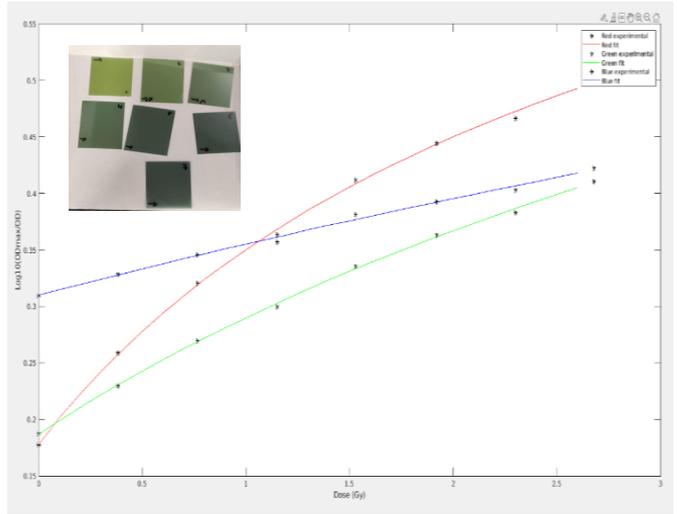

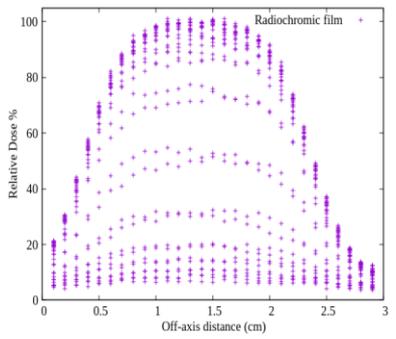

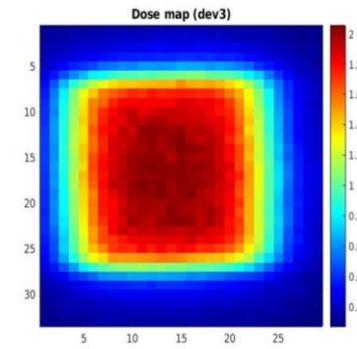

10x10cm²

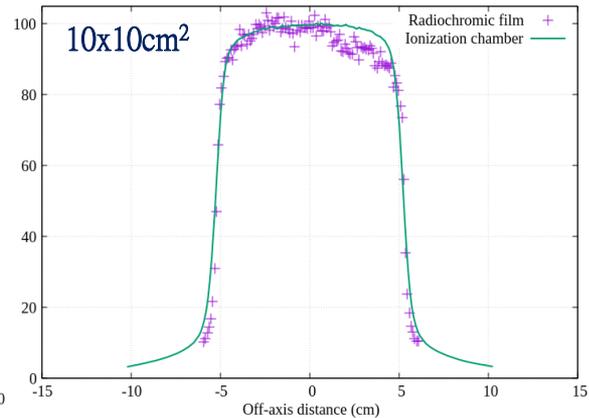

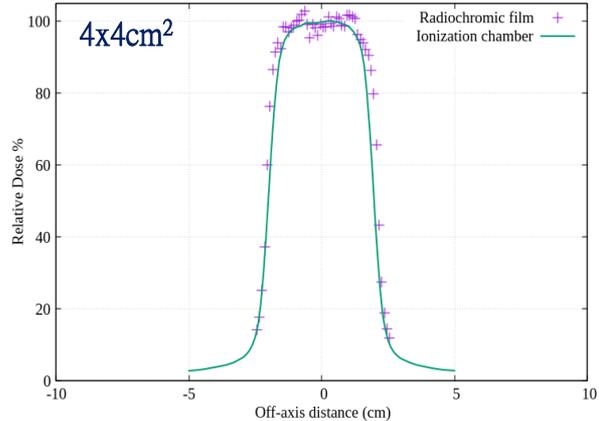

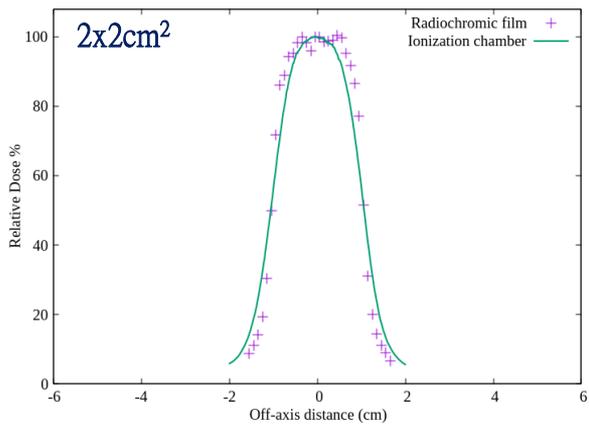

4x4cm²

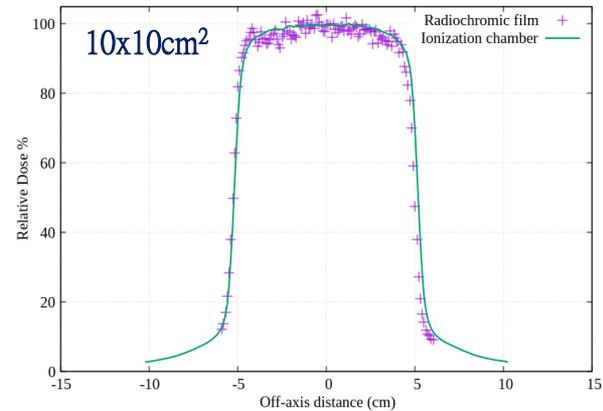

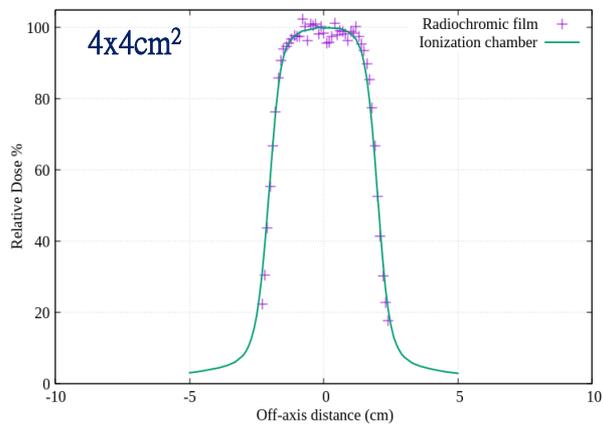

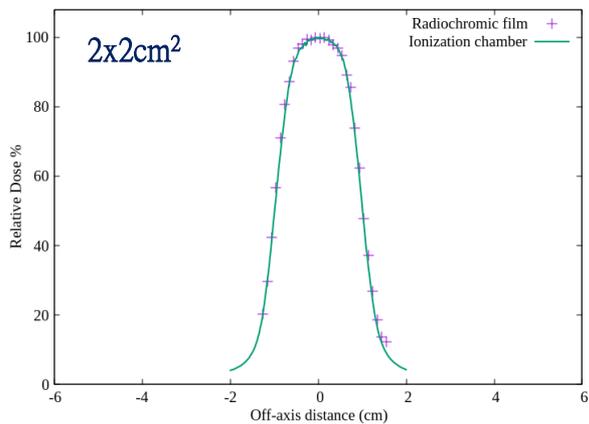

2x2cm²

Crossplane profile

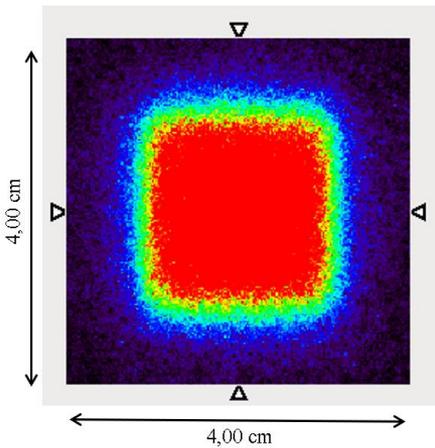

Inplane profile

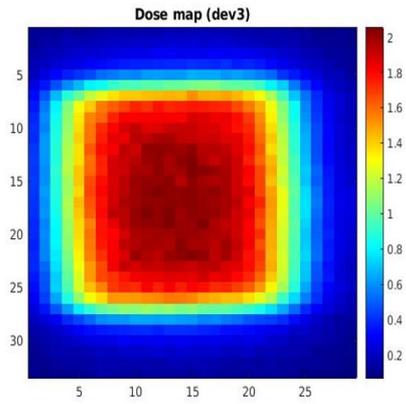

If $\gamma(r_m) > 1$ doesn't pass

If $\gamma(r_m) \leq 1$ pass

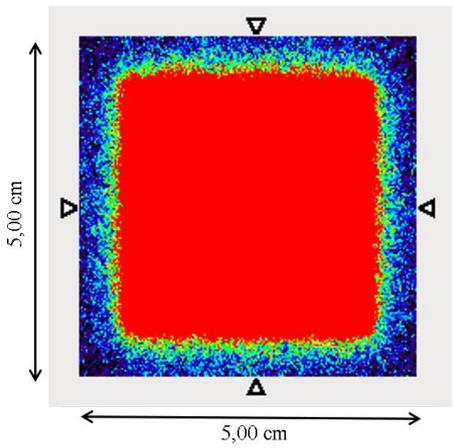

FIELD	Gamma index within the field		Gamma index in the penumbra region		Percentage of points that pass the test (3%, 3mm)	
	Inplane	Crossplane	Inplane	Crossplane	Inplane	Crossplane
MEASURE 2X2	0.33	0.37	0.54	0.64	97.6	96.3
MEASURE 4X4	0.22	0.28	0.36	0.43	97.8	96.4
MEASURE 10X10	0.21	0.24	0.26	0.35	98.7	97.9
