Part A. PERSONAL INFORMATION

First Name *	Marta		
Family Name *	Rapado Castro		
Sex*	Female	Date of Birth *	1981-01-01
ID number Social Security, Passport *		Phone Number *	913 60 00 00
URL Web			
Email Address	mirapado@iisgm.com		
Researcher's identification number	Open Researcher and Contributor ID (ORCID) *	0000-0001-8484-6051	
	Researcher ID	H-6481-2015	
	Scopus Author ID	24512520700	

* Mandatory

A.1. Current position

Job Title	Ramon y Cajal Senior Research Fellow, PDI Complutense University of Madrid		
Starting date	2019		
Institution	Institute de Investigacion Sanitaria, IISGM. Hospital General Universitario Gregorio Maranon, HGGM. UCM		
Department / Centre	Department of Child and Adolescent Psychiatry, Institute of Psychiatry and Mental Health, HGGM / School of Medicine		
Country		Phone Number	
Keywords	Cognitive neuroscience; Cognitive development; Neuropsychology; Psychological treatment		

A.3. Education

Degree/Master/PhD	University / Country	Year
Master's Degree on Research Methodology: Statistics and Study Design in Health Sciences	Universitat Autonoma de Barcelona	2012
PhD in Medicine	Universidad de Navarra / Spain	2009
Neuroscience and Cognition Doctoral and Master's Degree Program	Universidad de Navarra / Spain	2006
Master's Degree in Intervention in Anxiety and Stress Disorders (MPsyh Accredited Health Psychologist)	Universidad Complutense de Madrid / Spain	2004
Honours Degree in Psychology	Universidad Pontificia de Salamanca / Spain	2003

A.4. General quality indicators of scientific production

PhD thesis supervised in the last 10 years: 6 (3 PhD Thesis registered, 2 PhD dissertation summa Cum Laude, 1 PhD Outstanding); Master's thesis supervised: 9 (2 outstanding, 5 remarkable-, 2 MsC Thesis registered); Indexed publications (JCR): 93; Sum of the times cited (JCR): 1472; Average Citations per year (JCR): 98,184; Average Citations per Item (JCR): 17,52; WoS H Index: 24; Scopus citations: 2354; Scopus H Index: 27; Google scholar citations: 3069; Google scholar H Index: 29; Google scholar i10 Index: 39; ResearchGate Citations: 2491.

Part B. CV SUMMARY

I am a Ramon y Cajal Senior Research Fellow at the Child and Adolescent Psychiatry Department, University General Hospital Gregorio Marañón, IISGM, CIBERSAM; Teaching and Research staff (PDI) at the School of Medicine, Complutense University, Madrid, Spain; and Honorary Research Fellow at the Melbourne Neuropsychiatric Centre, University of Melbourne, Australia. I have been participating on research and clinical programs in Youth Mental Health since 2003 (28 research projects - 4 of them as principal investigator (PI)- and 9 clinical trials -2 of them as a PI). The excellence of my research has been recognized by a number of national and internationally competitive fellowships (11), grants (27 -4 as a PI) and awards (18). I have published 93 indexed publications (Scopus h-index =27), 20 book chapters and 3 books and I have 2 registered patents. I am currently establishing an area of research which tries to elucidate neurobiological correlates of cognitive function and symptoms in order to identify biomarkers and new targets for early intervention in psychiatry.

Part C. RELEVANT ACCOMPLISHMENTS

C.1. Publications

AC: corresponding author. (nº x / nº y): position / total authors. If applicable, indicate the number of citations

C.3. Research projects and contracts

- 1 Project.** U01MH124639, PRONET: Psychosis-Risk Outcomes Network.. National Institutes of Health (NIH). The Accelerating Medicines Partnership (AMP).. Arango C. (Hospital General Universitario Gregorio Marañón). 2020-2025. 54.160.120 €. Collaborator
- 2 Project.** PI21/00701, Identificando los correlatos de neuroimágen de la función ejecutiva a lo largo del continuum de la psicosis: Un estudio en adolescentes y adultos jóvenes.. Instituto de Salud Carlos III. Marta Rapado Castro. (Hospital General Universitario Gregorio Marañón). 2022-2024. 117.370 €. Principal investigator.
- 3 Project.** FAK18, Combination of treatment with N-acetyl Cysteine (NAC) and cognitive training to promote changes in behavioral and neural activation patterns that underlie cognitive deficit in adolescent psychosis. Koplowitz Foundation. Marta Rapado Castro. (Hospital General Universitario Gregorio Marañón). 2019-2021. 50.000 €. Principal investigator.
- 4 Project.** PI18/00753, Longitudinal study of oxidative and neuroinflammatory markers of cognitive function in early episodes of adolescent psychosis.. Instituto de Salud Carlos III. Marta Rapado Castro. (Hospital General Universitario Gregorio Marañón). 2019-2021. 111.320 €. Principal investigator.
- 5 Project.** B2017/BMD-3740, Genes and Environment in Schizophrenia – Research Groups from the Autonomous Community of Madrid (AGES-CM-2). Comunidad de Madrid. Celso Arango. (Hospital General Universitario Gregorio Marañón). 2018-2021. 934.226 €. Team member.
- 6 Project.** Mecanismos etiofisiopatológicos implicados en la pérdida progresiva de la sustancia gris cerebral en niños y adolescentes con un primer episodio psicótico.. Fundación Familia Alonso. Arango C. (Hospital General Universitario Gregorio Marañón). 2017-2021. 640.000 €. Collaborator.

- 7 **Project.** A combination of two treatment strategies to promote changes in behavioral and neural activation patterns underlying cognitive deficits in adolescent psychosis. Brain and Behaviour Research Foundation NARSAD. Marta Rapado Castro. (Hospital General Universitario Gregorio Marañón). 2016-2018. 100.000 €. Principal investigator. Principal investigator
- 8 **Project.** SAM15PINT1512, Maternal prenatal stress and HPA axis sensitization mediated by 11 β -HSD2 gene epigenetic signatures and its interplay with childhood psychosocial stress in explaining risk for psychopathology in adolescence. Intramural CIBERSAM. Rapado M. (CONSORCIO CIBER PARA EL AREA TEMATICA DE SALUD MENTAL (CIBERSAM)). 2016-2018. 25.000 €. Principal investigator. Principal investigator. Coordinator: Lourdes Mañas Institutions: Universidad de Barcelona, Hospital Universitario Ramón y Cajal, Hospital General Universitario Gregorio Marañón, Hospital Clínico d...
- 9 **Project.** PI15/00723, Multicentre study on the epigenetic signatures and peripheral immunological biomarkers of psychiatric disorders in children and adolescents with childhood maltreatment.. CENTRO DE ACUSTICA APLICADA Y EVALUACION NO DESTRUCTIVA; Instituto de Salud Carlos III. (Hospital General Universitario Gregorio Marañón). 2016-2018. 16.500 €. Principal investigator. Principal investigator. Coordinator: Lourdes Mañas Institutions: Universidad de Barcelona, Hospital General Universitario Gregorio Marañón, Hospital Clínico de Barcelona, Hospital Santiago Apostol...
- 10 **Project.** PIE14/00031, Understanding obesity (Ob), metabolic syndrome (MetS), type 2 diabetes (T2DM) and fatty liver disease (FL): a multidisciplinary approach. Proyectos excelencia interCIBER. Fondo de Investigaciones Sanitarias. Instituto de Salud Carlos III. Ministerio de Economía y Competitividad. Rapado M. (Hospital General Universitario Gregorio Marañón). 2015-2017. 660.000 €. Team member. Research collaborator
- 11 **Project.** I EPSS system number: 603196, Translating neuroimaging findings from research into clinical practice (PSYSCAN). 7º Framework Programme (EU). Celso Arango. (CONSORCIO CIBER PARA EL AREA TEMATICA DE SALUD MENTAL (CIBERSAM)). 2013-2017. 421.743 €. Research fellow. Associated investigator
- 12 **Project.** EPSS system number: 242114., OPTimization of Treatment and Management of Schizophrenia in Europe (OPTiMiSE). Large Scale Integrating project. Seventh Framework Programme (FP7). René S. Kahn. (Hospital General Universitario Gregorio Marañón). 2010-2016. Others. Researcher therapist collaborator.
- 13 **Project.** CIBERSAM; Intramural 13CINT1, Effect of a 48-week course of N-acetylcysteine (NAC) as add-on treatment on gray matter loss and oxidative metabolism, symptoms and functioning in early-onset first-episode psychosis: a randomized, double-blind, placebo-controlled clinical trial. CONSORCIO CIBER PARA EL AREA TEMATICA DE SALUD MENTAL (CIBERSAM); Intramural. Celso Arango. (Hospital General Universitario Gregorio Marañón). 2013-2015. 35.500 €. Team member. Investigador colaborador
- 14 **Project.** PI12/1303, Neurobiological study of cerebral gray matter loss in first episodes of early onset psychosis. Health Research Found (FIS), Carlos III Health Institute, Spanish Ministry of Economy and Competitiveness. Celso Arango. (Hospital General Universitario Gregorio Marañón). 2013-2015. 341.220 €. Team member. Research collaborator
- 15 **Project.** S2010/BMD-2422, Genes and Environment in Schizophrenia – Research Groups from the Autonomous Community of Madrid (AGES).. Comunidad de Madrid. Celso Arango López. (Hospital General Universitario Gregorio Marañón). 2012-2015. 758.900 €. Team member. Research collaborator
- 16 **Project.** EPSS system number: 241909, European Network of National Schizophrenia Networks Studying Gene-Environment Interactions (EU-GEI). Large Scale Integrating project. Comisión Europea. Jim van Os. (Hospital General Universitario Gregorio Marañón). 2010-2015. Others. Research Collaborator
- 17 **Project.** EC11-093, Effect of 24-week fatty acids Omega-3 treatment on loss of gray matter per year and oxidative metabolism in patients with first-episode psychosis: a randomised double-bind crossover placebo-controlled trial. Ministry of Health, Social Policy and Equality. Celso Arango López. (Hospital General Universitario Gregorio Marañón). 2012-2014. 164.000 €. Team member. Research collaborator

- 18 Project.** FAK 2012, Oxidative and Neuroinflammatory Markers of Cognitive Dysfunction and Negative Symptoms in First Episodes of Early Onset Psychosis: Longitudinal Study using Magnetic Resonance Spectroscopy. Alicia Koplowitz Fundation. Marta Rapado Castro. (Hospital General Universitario Gregorio Marañón). 2012-2014. 50.000 €. Principal investigator. Principal Investigator
- 19 Project.** QA2012146, Sources of clinical distress in young people at ultra high risk of psychosis. Personal Assessment and Crisis Evaluation, PACE clinic, Orygen Youth Health Research Centre, University of Melbourne. Barnaby Nelson. (University of Melbourne). 2013-2013. Team member. Research Collaborator
- 20 Project.** EC011-093, Efecto del tratamiento con NAC durante 48 semanas sobre la pérdida de sustancia gris al año y el metabolismo oxidativo en pacientes con primeros episodios psicóticos de inicio temprano: ensayo clínico randomizado doble ciego controlado con placebo. Ministerio de Sanidad y Consumo. Celso Arango. (Hospital General Universitario Gregorio Marañón). 2012-2013. 164.000 €. Team member. Investigador colaborador
- 21 Project.** SHARP Study: Stress and hypothalamic-pituitary-adrenal (HPA) axis functioning in early onset psychosis and its relationship with clinical and neuropsychological characteristics.. National Health and Medical Research Council (NHMRC) Australia.. (ORYGEN). 2012-2012. Honorary research collaborator. Honorary researcher
- 22 Project.** PS09/01442, Etiopathophysiological mechanisms of gray matter loss in early-onset first episode psychoses. A study based on a human and animal model.. Health Research Found (FIS). Celso Arango López. (Hospital General Universitario Gregorio Marañón). 2010-2012. Others. Research collaborator
- 23 Project.** Memory, concentration and planning abilities in schizophrenia: A comparison of two assessment packages. Comisión Europea. Shitip Kapur. (Hospital General Universitario Gregorio Marañón). 2010-2012. Others. Research collaborator
- 24 Project.** EC07/90293, Double-blind controlled placebo clinical trial of the efficacy of reboxetine and citalopram as an adjunct treatment to second generation antipsychotics in the treatment of negative symptoms in schizophrenia.. Health Research Found (FIS), Carlos III Health Institute, Spanish Ministry of Health and Consume.. Celso Arango López. (Hospital General Universitario Gregorio Marañón). 2008-2010. Others. Research collaborator
- 25 Project.** Implication of catecol-O-metil transferasa (COMT) gen in cognition and as a risk factor for schizophrenia in its interaction with neurodevelopmental disturbances as measured by neurological soft signs.. Mutua Madrileña Medical Research Foundation. Celso Arango. (Hospital General Universitario Gregorio Marañón). 2008-2010. Others. Research collaborator
- 26 Project.** PI06/1025, Study of the efficacy of a Psychoeducational Treatment for Patients with Early Psychosis and their Families.. Health Research Found (FIS). Ana Ruiz Sancho Puesto. (Hospital General Universitario Gregorio Marañón). 2006-2010. Others. Research Collaborator. Therapist for the group of adolescents/parents.
- 27 Project.** Cross-Cultural Utility of Intermediate Measures (CIM) as a part of MATRICS-CT, Validation of Intermediate Measures (VIM) from the MATRICS study. UTHSCSA The University of Texas Health Science Center, San Antonio & the MATRICS-group. Dawn Velligan. (Hospital General Universitario Gregorio Marañón). 2008-2009. Others. Research collaborator
- 28 Project.** Implication of three genetic polymorphisms (COMT, DRD3, BDNF) in psychosis: Association to prefrontal cognitive performance and neurological soft signs in early onset psychosis and their first degree relatives.. Alicia Koplowitz Foundation. Arantzazu Zubeldia Rabadán. (Hospital General Universitario Gregorio Marañón). 2006-2008. Others. Research collaborator
- 29 Project.** 115916 PRISM, Psychiatric Ratings using Intermediate Stratified Markers (PRISM): Providing quantitative biological measures to facilitate the discovery and development of new treatments for social and cognitive deficits in Alzheimer's disease, schizophrenia and depression.
