

WEBINARS CIENTÍFICOS FACULTAD DE QUÍMICAS

CURSO 2021-22

Chemistry, an outstretched hand to society/La química, una mano tendida a la sociedad

23/09/21	Sara García Linares(BQ)	<i>Venoms: enemies or allies?</i>
30/09/21	José Santos Barahona (QO)	<i>On-surface synthesis of novel polymers</i>
07/10/21	Begoña Lavín Plaza (BQ)	<i>Journey inside the body: How to study Cardiovascular diseases using Magnetic Resonance Imaging?</i>
14/10/21	Marta Pérez Estébanez (B. ARTES)	<i>Science and Art: Research in Cultural Heritage</i>
21/10/21	Eduardo Guzmán Solís (QF)	<i>Colloidal nanosystems containing essential oils as an alternative to traditional pesticides</i>
28/10/21	Marco Laurenti (F. FARMACIA)	<i>A bright future for upconversion nanoparticles</i>
04/11/21	Laura Nogués (BQ)	<i>The influence of tumour-derived extracellular vesicles on metastatic dissemination</i>
11/11/21	Maria Gamella Carballo (QA)	<i>Sense & Act systems: from biomarker detection to responsive release</i>
18/11/21	Jesus Prado Gonjal (QI)	<i>Microwave-assisted synthesis: a fast, efficient and sustainable approach for the development of clean energy materials.</i>
25/11/21	Eduardo Pérez Velilla (QF)	<i>Supercritical Fluids. Fundamentals and applications in Green Chemistry</i>
02/12/21	Diana Vilela García (QA)	<i>Smart hybrid micro/nanodevices as multifunctional tools against diseases</i>
09/12/21	Reyner Svardiaz del Rio (QF)	<i>Understanding Enzyme Activity Behind antimicrobial resistance to the last resort antibiotic colistin</i>
