David Martín Barroso is Associate Professor at the Department of Applied & Structural Economics and History, Faculty of Economics and Bussiness, Complutense University of Madrid, since 2001. He is B.A. Economics (Honours) by the University of Manchester, M.Sc. in Econometrics and Mathematical Economics by The London School of Economics and Political Science, and Ph.D. in Economics by Complutense University of Madrid.

He has published in refereed journals such as the European Journal of Operational Research, the Journal of Regional Science, the Journal of Transport Geography, Tourism Management, and Agricultural Economics, among others.

An important part of his teaching activities cover the analysis of the Spanish System of National Accounts, the Input-Output Framework, and The Balance of Payments of the Bank of Spain, which correspond to core materials of the economic syllabus in the Master EMOS.
