

UCM'S WIRELESS NETWORK

The university has Wi-Fi networks both indoors and outdoors. You can connect to the internet on campus using the eduroam network.

What is eduroam?

eduroam is a secure, worldwide roaming access service developed for the research and education community. It allows students, researchers, and staff from participating institutions 1 to roam securely between the participating institutions.

How to connect to eduroam:

1. **Enable Wi-Fi:** Turn on Wi-Fi on your device.
2. **Select eduroam:** Choose the "eduroam" network from the available Wi-Fi networks.
3. **Enter credentials:** You'll need your UCM username and password to connect.

If you have any trouble connecting, you can contact the IT support services at the university.

Still Having Trouble? Send an email to conveniosin@rect.ucm.es. We'll be happy to assist you further.
