TEXTO A

Does Listening to Music Stimulate Creative Thinking?

Listening to music while working may affect your creativity, according to a study conducted in 2000. This study looked at how different types of background music influence creative problem-solving. Participants did word puzzles in both quiet and music-filled settings, and, on average, their creativity scores were lower when music had been played. Therefore, the study questioned the idea that background music boosts creativity.

However, the relationship between music and creativity is not straightforward and can depend on the creative task the person is dealing with. In a study from 2022, researchers found that happy music helped with thinking of innovative ideas because it encourages flexible thinking. Another key issue found is that music can reduce anxiety and improve our state of mind, which can help with creative insights. A positive mood is generally good for creative breakthroughs. Conversely, anxiety tends to encourage intense focus, which isn't great for creativity.

Creative problem-solving usually involves different stages. After analyzing a problem and realizing that typical solutions don't work, the brain needs to shift focus to make room for new ideas. This is where music can be useful. Music can act as a mild distraction, relaxing the mind's focus at the same time that it facilitates a creative mindset. This often leads to "aha!" moments.

The type of music that can boost creativity varies among individuals. In most cases, pleasant and familiar music (not so new that it might become a distraction) can be helpful when seeking inspiration during problem-solving. So, if you find yourself blocked, try listening to some nice, familiar tunes.

TEXTO B

UNESCO Calls for Regulations on AI Use in Schools

Artificial Intelligence (AI) tools, such as ChatGPT, have recently been made available to the public. These apps can create automated text, images, videos, music, and even software code. All these platforms have been improving quickly and are already used by millions of people worldwide, including many students. However, very few countries have established rules to ensure the safe and ethical use of these AI tools.

Audrey Azoulay, Director-General of the United Nations Educational, Scientific and Cultural Organization (UNESCO) mentioned “using AI in education should not happen without involving the public and a serious analysis of its implications, as well as creating the necessary protections and rules by the governments.” She stressed that “AI can bring great opportunities for human development, but it can also be harmful and lead to unfair treatment.”

Consequently, UNESCO has created some guidelines that can help international leaders formulate specific regulations. The major goal for these common recommendations is to ensure a similar approach to the matter internationally. This will allow teachers to make the most of the many advantages of AI while prioritizing the interests of learners.

UNESCO's guidance is the first effort to set a global standard. It suggests prompt actions that can be taken to make certain that technology serves people's needs. This includes requiring the protection of data privacy and considering that AI tools should only be used in the classroom by those above the age of 13. The recommendations also outline that AI providers should safeguard that AI is used not only effectively but also ethically. Finally, the guidelines emphasize the importance of educational institutions testing AI systems to confirm they are suitable for students.

INGLÉS (LENGUA EXTRANJERA ADICIONAL)

CRITERIOS ESPECÍFICOS DE CORRECCIÓN Y CALIFICACIÓN

El ejercicio incluirá cinco preguntas, pudiendo obtenerse por la suma de todas ellas una puntuación máxima de 10 puntos. Junto a cada pregunta se especifica la puntuación máxima otorgada. La valoración y los objetivos de cada una de estas preguntas son los siguientes:

Pregunta 1: Hasta 2 puntos. Se trata de medir exclusivamente la comprensión lectora. El estudiante deberá decidir si dos frases que se le presentan son verdaderas o falsas, copiando a continuación únicamente el fragmento del texto que justifica su elección. Se otorgará 1 punto por cada apartado. Se calificará con 0 puntos la opción elegida que no vaya justificada.

Pregunta 2: Hasta 2 puntos. Se pretende comprobar dos destrezas: la comprensión lectora y la expresión escrita, mediante la formulación de dos preguntas abiertas que el estudiante deberá contestar basándose en la información del texto, pero utilizando sus propias palabras en la respuesta. Cada una de las preguntas valdrá 1 punto, asignándose 0,5 puntos a la comprensión de la pregunta y del texto, y 0,5 a la corrección gramatical y ortográfica de la respuesta.

Pregunta 3: Hasta 1 punto. Esta pregunta trata de medir el dominio del vocabulario en el aspecto de la comprensión. El estudiante demostrará esta capacidad localizando en el párrafo que se le indica un sinónimo, adecuado al contexto, de cuatro palabras o definiciones. Se adjudicará 0,25 por cada apartado.

Pregunta 4: Hasta 2 puntos. Con esta pregunta se pretende comprobar los conocimientos gramaticales del estudiante, en sus aspectos morfológicos y/o sintácticos. Se presentarán oraciones con huecos que el estudiante deberá completar o rellenar. También podrán presentarse oraciones para ser transformadas u otro tipo de ítem. Se adjudicará 0,25 a cada "huevo en blanco" y en el caso de las transformaciones o ítems de otro tipo se concederá 0,5 con carácter unitario.

Pregunta 5: Hasta 3 puntos. Se trata de una redacción, de 150 a 200 palabras, en la que el estudiante podrá demostrar su capacidad para expresarse libremente en inglés. Se propondrá una única opción y se otorgarán 1,5 puntos por el buen dominio de la lengua – léxico, estructura sintáctica, etc. – y 1,5 por la madurez en la expresión de las ideas – organización, coherencia y creatividad. Para corregir esta redacción se utilizará la siguiente rúbrica de evaluación:

Puntuación: de 0 – 3

Cada apartado se valorará entre 0 y 0,5, según se ajuste a lo que figura en el descriptor de "Excelente" (con la nota máxima de 0,5) o de "Deficiente" (con la nota mínima de 0).

	Excelente	Nota	Deficiente
CONTENIDO	El mensaje es claro, preciso y coherente, con ideas interesantes, que se atienen al tema propuesto. Se sigue el requisito de extensión mínima.	--/0,5	El mensaje es demasiado confuso, ambiguo o incoherente, con ideas irrelevantes o repetitivas. No se sigue el requisito de extensión mínima.
	Se muestra capacidad para desarrollar un punto de vista personal, con opiniones originales. Las ideas se ilustran de forma adecuada.	---/0,5	Es difícil distinguir la postura personal del autor. Se incluyen generalidades sin fundamento, porque no se aportan datos o ejemplos que ilustren las ideas expuestas.
	Se emplean conectores de forma efectiva y variada.	---/0,5	Faltan conectores adecuados y se acusa una falta de transiciones temáticas lógicas.
FORMA	No hay errores importantes de gramática	---/0,5	Hay errores graves de gramática
	No muestra limitaciones en el uso del vocabulario que utiliza.	--/0,5	Hay errores graves de léxico.
	No hay errores importantes de ortografía y/o puntuación.	- / 0,5	Hay múltiples equivocaciones en el uso de la ortografía y/o la puntuación.
Total		--- / 3
