

Career opportunities in science: To academy and beyond 1st Edition

Scientific communication

21st November, Salón de Actos del CNB
10.00-12.00

Jesús Sánchez Ruiz

Creator of Laboratoons, a scientific communication project where science is rigorously communicated through comics. Do you want to learn how to communicate your science to broad audiences through the medium of illustration? Then this workshop is for you!

Lucas Sánchez

scienseed

Co-founder and director of Scienseed, a company focused on all aspects of scientific communication. Do you want to know how you can apply your scientific and communication skills to help projects and companies better communicate their science? Then join us in our workshop!

Organised by the
CNB Postdoctoral Commission
