2001 – 2001	Beca Investigación / Instituto de Salud Carlos III/España
2000 – 2001	Beca de Colaboración (Investigación)/ (UCM)/España

**A.3. Formación Académica**

Grado/Master/Tesis	Universidad/Pais	Año
PhD in Medicine	Complutense University of Madrid	Currently
PhD in Neuroscience	Complutense University of Madrid	2005
Degree in Psychology	Complutense University of Madrid	2001

**Parte B. RESUMEN DEL CV (máx. 5000 caracteres, incluyendo espacios):**

I am the author of **51 scientific publications**, all international and peer reviewed. **55% in the first quartile (Q1)**. Author also of three chapters of international books. Having as axis addiction studies, and especially alcohol, I have been incorporating lines of research progressively. At first it was the neurobiology of the endocannabinoid system. Subsequently, gene expression studies were added, then genetic association studies in humans, then epigenetic studies in animal and human models, and more recently studies on the gut microbiota and the gut-brain axis. As a result of all these works, we have been able to advance in the knowledge of pharmacological treatments in alcohol addiction

and / or its prevention. With the COVID-19 pandemic, we introduced our experience as a technology-based company for the development of rapid lateral flow tests, for detection of antibodies/antigens. Most of my publications are in collaborations with other national and international research groups (see section C2). As main researcher I have directed multiple competitive international, national and/or regional projects (see section C3). I have also obtained various contracts (Art. 83) with public and private institutions (see section C4). **The total amount of funding obtained as Principal Investigator in the last 10 years amounts to 1.567.490,3 €\*** \*Other grants received, but not shown in the CV, have not been added.

We have worked for several years in addiction prevention programs in schools in the Community of Madrid, reaching more than 30,000 students. All this has been articulated through Articles 83. In 2015 we created the Technological Base Company of the Complutense University, Mideloy SL, specialized in the development of rapid lateral flow tests. During the pandemic we have collaborated with the Arganda del Rey City Council in the evaluation of COVID-19 antibodies of more than 20,000 people with rapid tests. We were among the first to commercialize antibody tests - April 2020- in Spain.

Regarding my training activities, I have directed five theses already defended (two of them with an extraordinary prize) and another two that will be defended soon. I have directed 31 Final Master's Projects. Currently, I have three "Sexenios de Investigación" (six-year research period reviewed) and one "Sexenio de Transferencia", that revalidate my work as a researcher and the transfer of my research to the society repeatedly.

## C.2. Congresos

**Congress:** Spanish society for microbiota, probiotics and prebiotics  
**Title:** Relationship between intestinal microbiota and alcohol consumption.  
**Authors:** **López-Moreno J.A.**, Rincón-Pérez I, Bühler KM, Calleja-Conde J, Segovia L, Giné E, Albert J, Hinojosa JA, Rodríguez de Fonseca F, J Echeverry-Alzate V  
**Modality:** Oral Com. - Award for best oral communication in the field of preclinical research  
**Date and location:** 12-14º of february 2020 (Granada)

**Congress:** European Society for Biomedical Research on Alcoholism Congress  
**Title:** Translational studies in alcohol-induced changes in gut microbiota  
**Authors:** López-Moreno J.A., Rincón-Pérez I, Echeverry-Alzate V, Bühler K, Calleja-Conde J, Segovia L, Giné E, Rodríguez de Fonseca F1, Albert J, Hinojosa J.A.  
**Modality:** Oral Communication  
**Date and location:** 21-24º of september 2019 (Lille/Francia)

**Organizer of the 19<sup>th</sup> Annual Genes, Brain and Behavior Meeting** (International Behavioral and Neural Genetics Society, IBANGS) held in Madrid from 15<sup>th</sup> to 18<sup>th</sup> of May, 2017 (Faculty of Medicine, Complutense University Madrid)

## C.3. Proyectos o líneas de investigación en los que ha participado

1: **Project reference:** ANTICIPA-CM  
**Title:** Anticipation and Prevention of COVID-19 in the Community of Madrid  
**Financing entity:** Ministry of Education, Com. of Madrid and European Regional Development Fund.  
**Period:** 2021-2022 / **Principal Investigator:** Jose Antonio López Moreno, UCM  
**Funding:** 8.489.999,91 € (**118.895,2 €** al grupo de investigación)

2: **Project reference:** ANT-UNIV-COVID19  
**Title:** Analysis of COVID-19 Antibodies in the Spanish University System.  
**Financing entity:** CRUE-Banco Santander  
**Period:** 2020-2021 / **Principal Investigator:** Jose Antonio López Moreno, UCM  
**Funding:** **90.000 €**

3: **Project reference:** 2018-050  
**Title:** Alcohol and Gut Microbiota Considering Gender / Sex Differences  
**Financing entity:** National Plan on Drugs, Ministry of Health  
**Period:** 2019-2021 / **Principal Investigator:** Jose Antonio López Moreno, UCM  
**Funding:** **72.000 €**

4: **Project reference:** RD16/0017/0008  
**Title:** Funding for stable cooperative research structures in the area of biomedicine and health (networks of cooperative research - health-Network of Addictive Disorders – ISCIII)  
**Financing entity:** UCM  
**Period:** 2017-2021 / **Principal Investigator:** Jose Antonio López Moreno, UCM  
**Funding:** **89.034€**
