

Nombre: Justo Enrique Cabrera González

Email: justocab@ucm.es

Teléfono de contacto: ---

Posición y cargo: Profesor Ayudante Doctor

Grupo de Investigación: ---

Docencia: ---

Área de Conocimiento: Química Orgánica

SCOPUS: 56650987400

ORCID: 0000-0002-7733-9681

Researcher ID: ABE-9382-2020

Biography: **Justo Cabrera-González** was born in Granada (Spain). He obtained his degree in Chemical Engineering at the University of Granada in 2009. After a brief time working for a company, he started his research career in chemistry in the Institute of Materials Science of Barcelona (ICMAB-CSIC), where he completed his PhD in 2016 under the supervision of Dr. Rosario Núñez. His research covered organic and inorganic synthetic procedures in the preparation of new boron cluster derivatives for optoelectronic and biomedical applications. In 2016, Justo joined the research group of Prof. Sylvia M. Draper at Trinity College Dublin (Ireland) as a postdoctoral research fellow, working on the preparation of photoactive iridium and ruthenium metal complexes for biomedicine. Justo returned to Spain in 2019 obtaining a grant from the Talent Attraction Program founded by Comunidad de Madrid, and he works as a Postdoctoral Researcher on Carbon Nanostructures for biomedical applications with Prof. Beatriz Illescas and Prof. Nazario Martin. Finally, in 2022 Justo got a position as *Profesor Ayudante Doctor* in the Department of *Química en Ciencias Farmacéuticas* in the Universidad Complutense de Madrid.

Research Interest: drug design; nanomedicine; nanomaterials.
