

FICHA PERSONAL DEPARTAMENTO

Nombre: Miguel Ángel Casermeiro Martínez

Email: casermeiro@ucm.es

Teléfono de contacto: +34913942088

Posición y cargo: Profesor Titular

Grupo de Investigación: Fitosolum

Docencia: since 1997 I am involved in all the teaching activities of the Soil Science Department, in all graduated and post-graduate courses: degrees on Pharmacy, Food Science and Technology and Geological Science. I have more than 20 years of lecturer experience and I have been invited as visitor to several master's degrees by the Universidad de Barcelona, International University of Andalucía, or CEU San Pablo University. I promoted the development of a professional master's degree in Environmental Health in the UCM, and the creation of the Environmental School Tatiana Pérez de Guzmán el Bueno at the Universidad Internacional Menéndez Pelayo.

Área de Conocimiento: Edafología y Química Agrícola

SCOPUS: 6506240792 **ORCID:** 0000-0002-1415-9528 **Researcher ID:** W-6105-2019

Biography:

Graduated in Pharmacy (summa cum laude) in 1990, M. Sc in Environmental Impact Assessment 1992 and PH. D. in Pharmacy 1995 with a laureate Thesis about soil degradation (Juan Martel Prize). My research interest comprises Environmental Impact Assessment and specifically the impact of agriculture and other activities in natural ecosystems. I focus in soil degradation, the role of the soil in climatic change and Health Impact Assessment. Since 1997 I am staff, under different positions at Soil Science Department of the Universidad Complutense de Madrid. I am co-director of the Research group Fitosolum and our research group collaborated with other nationals and international colleagues in this field. I had been principal investigator or participant in over 20 research competitive projects. I also have a great experience of research transference with different companies with more than 20 research contracts signed with our research group.

Research Interest: Soil degradation, soil-plant relationship, Environmental Impact Assessment, Health Impact Assessment.
