

Nombre: Daniel Garraín Cordero

Email: dgarraín@ucm.es

Teléfono de contacto: +34 913941866

Posición y cargo: Profesor Asociado

Grupo de Investigación: -

Docencia: Grado en Farmacia, Doble Grado en Farmacia y Nutrición Humana y Dietética

Área de Conocimiento: Química Inorgánica

SCOPUS: 25936207100, **ORCID:** 0000-0003-3219-0139, **Researcher ID:** L-4846-2014.

Biography: Chemical Engineer PhD at Universitat Jaume I (UJI) (Castellón, Spain). He joined CIEMAT Energy Systems Analysis Unit in 2009. During his PhD stage at UJI (2006-2009), he worked in several projects related to the development of Life Cycle Assessment (LCA) method and its application to several processes and products, some of them were focused on the improvement of the ecodesign concept. His professional and research activities in CIEMAT are focused in the areas of LCA and sustainability and their applications to emerging energy technologies. He joined a 6-month grant as visiting researcher at INRA-AgroParisTech UMR Ecosys, Bioclimatology in Thiverval-Grignon (France), from January to June 2015. He has participated in several national and European projects and published 30 research papers in journals, 9 books, 11 book chapters and +120 papers in international conferences. He has also conducted two PhD theses. Finally, his professional activity is complemented as teacher at Universidad Complutense of Madrid, currently at Pharmacy Dpt, and at Chemical Engineering Dpt. in 2011-2012, and also as trainer in several specific courses about LCA and environmental issues.

Research Interest: Life Cycle Assessment, Sustainability, Energy Systems, Critical Raw Materials, Water Footprint
