Posición y cargo: Personal Docente Investigador–Investigadora Predoctoral.

Grupo de Investigación: *NanoBioTecnología para Ciencias de la Vida* (NBT4LS)

Docencia: Prácticas de laboratorio en el Grado en Farmacia.

Área de Conocimiento:Química Física.

ORCID:0000-0002-5296-2696;**Researcher ID:**M-4315-2018.

Biography:

Karina Ovejero Paredes received her degree in Experimental Sciences from Universidad Rey Juan Carlos (URJC) in 2017 and she obtained her master's degree in Translational Medical Research from Universidad Complutense de Madrid (UCM) in 2018. Since 2018, she is a PhD student in the Nanobiotechnology for Life Sciences group at the Chemistry in Pharmaceutical Science Department of the Pharmacy Faculty (UCM), under the supervision of professors Marco Filice, Marzia Marciello and Andrés Alcántara. She is also Visiting Scientist in the Microscopy and Dynamic Imaging Unit of Spanish National Center for Cardiovascular Research (CNIC).

Research Line: Her research activity is mainly focused on Nanobiotechnology and Nanomedicine. More specifically, she works on the development of multifunctional nanocarriers that can be used as theranostic agents (therapeutic + diagnostic) in diseases such as cancer.
